In the late summer, the Global Food Crisis Task Force was established to address the unprecedented impacts of COVID-19 on food insecurity across the globe. The task force brings together leading organizations from various sectors to coordinate efforts, share information, and advocate for urgent action to prevent a global food crisis.

The task force focuses on identifying and addressing the root causes of food insecurity, including the economic impacts of the pandemic, and working towards solutions that are inclusive and equitable. They are also working to promote global coordination and cooperation, and to ensure that the voice of those most affected by food insecurity is heard.

The task force is committed to preventing a global food crisis and ensuring that all people have access to the food they need to thrive. They are working towards a world where no one is hungry, and where everyone has the opportunity to reach their full potential.

Thank you for your continued support of Open Table and our work to ensure that all people have access to the food they need to thrive.
