But we always need and because of YOUR amazing support, we now are fully stocked on Market Basket. If you have groceries to donate, you can now drop them off in the bin at the new Crosby’s Market Hansom AFB and The Bromfield School. Let us know to expect it so we know it's from you! Any questions, contact us. We have been designated by the IRS as a 501(c)(3) organization, which means the contributions you make are tax deductible. Please review with Certified Financial Planner, (CFP) or CPA first.

You can contact us at office@opentable.org, or visit https://www.opentable.org/employment for more information.

We Break for Spring…

Looking to jump-start your culinary career? Join our jovial teams (yes, we have several!) of people doing good in the world by preparing meals-to-go while honing valuable kitchen skills. We are looking for Kitchen Assistants to assist them in planning, prepping, production, inventory control, scheduling and training.

We are looking for people that are passionate about food and the environment. You will beき one of the programs we are excited to launch this spring. Visit https://www.opentable.org/employment for more information.

Thoughts on Carrots...

When you prepare over 600 meals a week, it's likely you will be peeling lots of carrots! Carrots were first domesticated in Persia around 5000 years ago, and were usually yellow in color. It wasn’t until they introduced the vegetable to other European countries, the people assumed that it was the color of royalty and started to honor William of Orange and the burgeoning country's national color. But it is more likely that the color was a sign of the quality of the carrot. We now know that carrots contain high levels of beta-carotene, which is a form of vitamin A, helping you grow and prevent illness.

Fun Food Facts: Carrots

Carrot juice is a good source of vitamin A, helping you grow and prevent illness.

When they introduced the vegetable to other European countries, the people assumed that it was the color of royalty and started to honor William of Orange and the burgeoning country's national color. But it is more likely that the color was a sign of the quality of the carrot. We now know that carrots contain high levels of beta-carotene, which your body converts when they are exposed to sunlight. Beta-carotene is a yellow-orange pigment that gives carrots their characteristic color. It is also found in other vegetables such as sweet potatoes and cantaloupe. Beta-carotene is an antioxidant that can help protect against cell damage.

It's Finally Spring!

We know you're happy to ring in the new season by welcoming warmer weather. We've got a few ideas for how you can join us in supporting our mission and making a difference in our community.

New Volunteer Software is Almost Here!

If you're a volunteer, you've been logging in to opentable.org/volunteer and helping us get ready for our spring reopening. New volunteers may have been a bit confused about the login process. In Maynard, we now have a more user-friendly experience when signing up for shifts. Prior to the April 25 reopening, we’ve been working on making this process easier than ever.

We're almost ready to launch our new volunteer software, which will allow us to better manage our volunteer program and make it easier for you to join our team. This change will make scheduling easier than ever.

Almost Here!

New Volunteer Software is

_needed to be accessible at any time. If you need assistance, we can help.

It’s Tax Time — Do Good For You AND Open Table

If you are a tax professional, you may be interested in learning more about how Open Table is working with our volunteer and staff team to ensure that our financial programs are as efficient and effective as possible.

This Month’s Donations

We’re excited to share some of our dedicated in-kind donors for April 2021! These are some of our dedicated in-kind donors for April 2021!
