Open Table

Keeping up with Inflation

When you first opened this book, you may have noticed that the prices have increased. It’s not just you; every purchase has gone up in price, and it’s affecting your grocery budget too. In this issue, we’re highlighting the importance of community and the role that community plays in helping you navigate these challenges. Our feature on Afghan Refugee Resettlement focuses on how these families are being supported in their new home, and how they’re contributing to the local economy. We also have a volunteer spotlight on Jonathan Hackney, Kitchen Manager at Open Table, and a learning article on food insecurity. So grab a cup of coffee and dig in to this issue of Open Table.
