

Concord Resident Conan Reidy Joins Open Table Board of Directors

Concord and Maynard, MA (August 4, 2025) – Open Table, the MetroWest charity dedicated to fighting hunger and building healthy communities, has appointed Concord resident Conan Reidy to its board of directors effective July 1. Reidy brings both a proven record in corporate development as well as a familiarity with Open Table operations to the BOD.

For the past 20 years, Reidy has worked as a strategy and corporate development executive for software companies. He currently runs mergers and acquisitions and venture investing for Zendesk, a customer service software company. Prior to Zendesk, he worked for Rapid7, a Boston-based cybersecurity software company.

In addition, Reidy is a regular volunteer at Open Table where he can be found in the kitchen working on his knife skills and indulging his love of cooking. Raised in Washington state, Reidy moved to Massachusetts with his wife Kathleen in 2003. Recent empty-nesters, they raised two daughters in Concord, where they still reside.

“Open Table provides crucial services to many, many people in our community,” said Reidy. “As a member of the Open Table BOD, I’ll have the opportunity to help sustain and grow Open Table as it fulfills its mission to fight food insecurity amongst our neighbors.”

Open Table is managed by an active board of directors, whose members represent diverse backgrounds in business, law, public relations, education, healthcare and technology. Many have extensive volunteer experience either with Open Table, with other organizations, or both.

Concord resident Conan Reidy has joined the Open Table board of directors.

About Open Table

Open Table is a 501(c)(3) established in 1989. Its mission is to address hunger in the local community by providing healthy food in a welcoming environment while respecting the dignity and diversity of those served. For more information, visit: www.opentable.org
